

# CHECK-OFF DROPPED--HARD COAL PERIL WANES

## BEN HENDERSON IS FINED, JAILED IN BOOTLEGGING CASE

La Crosse Man and Wife Arrested in Decorah, Ia., After Chase Through Town

HAD 20 GAL. OF HOOGH IN  
TINS AND BOTTLED GOODS

Judge Assesses \$350 Fine and  
Eight Months in Jail

DECORAH, Iowa.—Ben Henderson of La Crosse, was sentenced to serve eight months in jail, and pay a fine of \$350 by Judge W. J. Springer Tuesday for the illegal transportation of liquor into Iowa, and an order of confiscation of Henderson's Cleveland sedan was included in the court record. Henderson and his wife, Edna Henderson, came to Decorah last Wednesday. They had been here before and were under suspicion of having sold liquor, but no evidence had been found against them. Officers Tupper and Rime found them in conversation with a Decorah man who is also under suspicion.

On seeing they were officers Henderson stepped on the gas and a race ensued between him and the officers. Officer Tupper's car was too speedy for Henderson and the latter was overhauled in the residence section of the city near the city park. A search revealed 20 gallons in gallon cans and a suit case of bottled goods bearing labels that purported the contents to have been bottled in Canada. Henderson and his wife spent the night in jail and on Thursday morning were taken before Judge H. R. Barthel who bound them over to the district court.

Henderson claimed his wife had nothing to do with the transaction and she was released and returned home. He also waived appearance before the grand jury and was taken before Judge Springer, who was here in vacation hearing some matters in juvenile court.

E. R. Acres appeared for Henderson and in conjunction with Attorney F. B. Wilshire of La Crosse filed an affidavit that County Attorney Nelson had promised Henderson a light fine and the return of his automobile if he would plead guilty. This was denied by Mr. Nelson and the case was continued until Tuesday in order to bring Mrs. Henderson into court as a witness for her husband. The case came on for a hearing at 9 o'clock in the morning and was concluded at 3:30 when Judge Springer rendered his decision as indicated above.

If Henderson can not pay his fine, he will have to serve it out in jail at the rate of \$2.33 per day along with his sentence of eight months.

## HOW IS HE SURE HE'LL NEED FURS AT JOURNEY'S END?

TEXARKANA, Tex.—In accordance with requests made prior to his death here Wednesday the body of Dr. Fred M. Spiers, reported to have formerly served as United States commissioner in Alaska, was wrapped in a great coat of Russian sable, fur lined boots, and a fur cap when it was prepared for burial. The burial robes, it was estimated, were valued at approximately \$35,000.

## WEATHER REPORT

For La Crosse and vicinity.—Generally fair tonight and Friday. Slightly warmer Friday.  
For Wisconsin.—Generally fair tonight and Friday. Slightly warmer in the north.  
For Minnesota.—Partly cloudy tonight and Friday. Not much change in temperature.  
For Iowa.—Cloudy tonight. Friday generally fair and slightly warmer.

**TODAY'S TEMPERATURES**  
La Crosse 62  
Decorah 60  
Dubuque 60  
Keosauqua 60  
Mendota 60  
Muskego 60  
Oshkosh 60  
Winnebago 60  
Waukegan 60  
Wauwatosa 60

**RIVER BULLETIN**  
The river will fall slightly during the next 24 hours.

**NATION-WIDE RECORD**  
Lowest temperature in the United States recorded at La Crosse, Wis., on August 15, 1923, was 62 degrees.

## German Reds Take Town, Beat Troops

BERLIN.—By The Associated Press.—Communists Thursday stormed the city hall at Datteln, nineteen miles northeast of Essen, disarmed the police and took possession of the town, says the Central News. Militia which was summoned from a neighboring town also was disarmed. Many casualties occurred on both sides.

**CLAIM GERMAN ASSETS**  
PARIS.—By The Associated Press.—The inter-allied reparations committee formally notified Germany Thursday that reparations constitute a prior claim on the resources which Germany has expected to utilize to guarantee her new gold loan.

## RADICAL REVOLT IN GERMANY ON EDGE OF COLLAPSE

Order Restored at Zeitz Where  
Reds Tried to Seize  
Factories

BERLIN.—By The Associated Press.—The strike situation in the provinces has somewhat improved and it is believed that the general strike of the communists is on the verge of collapse. Order has been restored at Zeitz, the Prussian industrial center where the communists attempted to get possession of the factories.

The strike in the Central German lignite district has been settled and work resumed but the ports of Hamburg and Bremen are at a standstill because of the idleness of the dock workers.

**Demand Men Work**  
DUESSELDORF.—By The Associated Press.—The mine owners' association in Ruhr, according to the German press, has issued an ultimatum saying that if the miners do not cease by tomorrow their practice of reporting for duty without doing work, they will all be locked out.

Simultaneously the communists organizations are beginning a campaign to extend this form of sabotage to all classes of labor.

Belgian authorities, it was announced, have imposed a fine of three billion marks on Duisburg as a penalty for the bomb explosion on a train near that city in June. Ten Belgian soldiers were killed and two score others injured.

**Separate Replies**  
Paris.—France and Belgium have agreed to make separate replies to the note of Lord Curzon, the British foreign secretary, regarding reparations.

## KEEP DE VALERA IN JAIL UNTIL ERIN GETS CALM

Government Plans to Bring Him  
to Dublin for Guard Under  
Safety Act

DUBLIN.—By The Associated Press.—Eamon De Valera, arrested under dramatic circumstances at Limerick Wednesday when he appeared to deliver a speech in the election campaign, will probably be brought from Limerick, where he is imprisoned at present, to Mount Joy jail within the next few days. The public safety act gives the government power to detain him and it is considered likely that he will be kept in jail until the condition of the country is more peaceful.

It is officially declared there is no foundation for the statement that the government could have arrested Mr. De Valera at any time during the past twelve months. He has been in hiding and the government forces continuously searching for him, took the first opportunity they had to arrest him, which was afforded by his appearance at Ennis. It is asserted.

## Labor Party Program

DUBLIN.—By The Associated Press.—The program of the Irish labor party made public today, proclaims the right of the Irish people to the ownership of their country and to the complete control of their destinies. The sovereignty of the people, it asserts, embraces every man and woman in the nation as well as its material wealth and resources and all the processes of producing wealth. The platform also demands that work and a living wage be guaranteed to every person who is willing to labor and declares in favor of peace and economic freedom.

## COALS BURN BARE FEET

PESHIGO, Nomi, Chindoff, while playing about in her bare feet, ran through the coals of a bonfire, burning both feet severely.

## U. S. AND MEXICO AGREE ON AMERICANS' RIGHTS; RECOGNITION IS CLOSE

### MOTHER FLEES WITH SON AND CAR OF A FAMILY IN HOKAH

Detroit Woman Takes 15-year-  
old Boy Who Lived Since  
Infancy With Jacksons

**AUTOMOBILE IS RECOVERED  
IN GARAGE IN THIS CITY**

Mother and Son Believed to  
Have Taken Train for East

POLICE on Thursday were seeking the whereabouts of Mrs. Marie Spedding, Detroit, who is alleged to have stolen the Ford touring car owned by Mrs. M. Jackson, Hokah, and made her escape with her fifteen-year-old son, Howard, who from his infancy has been in the care of Mrs. Jackson at Hokah.

After a search of the city police found the car at the Elsen and Phillips garage Thursday morning where it is supposed it was left by Mrs. Spedding and her son following their simultaneous disappearance Wednesday morning.

According to the police report Mrs. Spedding, who is the rightful mother of the child, went to Hokah some days ago with the intention of paying her son a visit. Unknown to members of the Jackson family, Mrs. Spedding and her son and the automobile disappeared Wednesday morning.

Although the boy has not been adopted by the Jackson family, he was given over to them by Sol Burdick, poor commissioner, when he was an infant boy.

Abandonment of the car here led the police to the theory that Mrs. Spedding and the boy left the city by train.

## GAS ATTACKS MADE ON FARM HOME; POLICE ON SCENE

HOWELL, Mich.—State police arrived here on Wednesday to investigate mysterious attacks on residents of "Folk Brothers" farm.

According to charges by Miss Gertrude Falk of St. Louis, who is spending the summer with her mother and three brothers on the farm, gas attacks have been made on members of the family almost nightly for three months.

The first "gassing" Henry Falk said, occurred about a year ago. He said the air suddenly became filled with a sweet pungent odor which sent the family into a stupor.

The same thing happened for two or three nights. Falk asserted, until it became necessary to stuff the cracks of the doors and windows.

Recently the gas attacks were launched more vigorously than ever.

## FORD TOURING CAR OVERTURNS NEAR TEN-MILE HOUSE

Four passengers in a Ford touring car, George Faktor, Frank Haggeman, Jay Letcher and D. C. Dewey, escaped uninjured when their machine overturned near the Ten-Mile house on Mormon Coulee road while they were returning to the city from Dodgeville about one o'clock Thursday morning. It was said that the lights suddenly went out and the car ran over the bank in the darkness before it could be brought to a stop.

## MADISON KLAN ORDERS MEMBERS TO WEAR BOWTIES

MADISON, Wis.—Bowties have become unhealthy in Irish and Jewish neighborhoods. The Madison Ku Klux Klan has announced the adoption of this form of neckwear for its members. Klan members are instructed to wear the tie with a stick pin on the knot.

## U. S. BANS IMPORT OF FRUITS TO BAR DANGEROUS FLIES

WASHINGTON, D. C.—A quarantine on all fruits and vegetables offered for import into the United States except from Canada, effective Nov. 1, was announced Wednesday by the department of agriculture as a step toward keeping certain injurious fruit and melon flies out of the country.

## PRELIMINARY PACT SIGNED FOR REPORT TO THE GOVERNMENT

Mexico Pledges Satisfactory Interpretation of Sub-soil  
and Agrarian Laws

MEXICO CITY.—By The Associated Press.—The records of the conference between the representatives of the United States and Mexico, embodying an agreement designed to make possible the resumption of diplomatic relations between the two nations, were signed here at 2:15 o'clock Wednesday afternoon.

The signature brought to a successful conclusion the negotiations, extending over more than thirteen weeks, between Charles R. Warren and John Barton Payne, personal representatives of the American president, and Fernando Gonzalez Roa and Ramon Rosa, for President Obregon. The actual signature, however, was by Juan R. Brandid and J. Ralph Kings, secretaries of the Mexican and American delegations respectively.

The American delegates will leave shortly for Washington for submission of the records, together with the accompanying claims, conventions, to President Coolidge and Secretary of State Hughes. It is confidently expected here that the Mexican government's interpretations of the sub-soil petroleum legislation and agrarian laws contained in the record signed today will be acceptable to the American administration and that the appointment of a United States ambassador to Mexico will not long be delayed.

Indications are that the two claims, which are intimately related to the United States' determination to secure guarantees for American rights in Mexico will likewise soon be submitted to the American and Mexican senates for approval, contingent upon the extension of recognition.

**Mexico Pledges Good Faith**  
The conference records contain Mexican government interpretations of the sub-soil petroleum and agrarian legislation acceptable to the American delegates, and an expression of the government's intention to follow

(Continued on page six)

## NEAR COMPLETION OF ARNOLD JURY IN FRAUD CASE

Bond Dealer Sits With Wife  
as Talesmen are Examined

SUPERIOR, Wis.—After twelve jurors had been questioned and remained in the box, a short recess was taken at 1 a. m. in the case of Victor H. Arnold, on trial in federal district court here charged with an alleged use of the mails in a scheme to defraud.

The court announced the defense had ten peremptory challenges and the state six.

An article which appeared in the Superior Telegram Monday week and which resulted in the court's reprimanding two local newspapermen and threatening to penalize future offenders for contempt of court caused another venturism to be excused Thursday morning. One was excused Wednesday afternoon for he same reason.

Throughout the session Arnold and his wife sat side by side at defense counsel's table scanning closely the faces of the men in the jury box. They appeared calm and hardly moved, except once when the defendant was asked a question by one of his attorneys.

## POLICE HIDE NOTE OF GIRL SUICIDE

MADISON.—Two notes, which the police have patched together were left by Lucille Q. Wolfe, who shot and killed herself recently while riding in an automobile. One was addressed to the county coroner, "Bury me," it read. "There is no one else to do it." The police have refused to make public the contents of the other.

## TORONTO PRINTERS' CHOICE ATLANTA, Ga.—By The Associated Press.—Toronto Thursday was selected as the 1924 site for the convention of the International Typographical union.

S. D. Druggists Convened  
ABERDEEN, S. D.—Druggists from all over the state are here to attend the 37th annual convention of the South Dakota Pharmaceutical association which opened Wednesday and continues for three days.

## K. K. K. WAR OPENS IN PISTOL FIGHT AT STEBENVILLE, OHIO

Alleged Klan Official is Fired  
Upon in Darkened  
Street

KLANSMEN MASSING TO  
TAKE REVENGE STOPPED

Disarmed by Sheriff and Sent  
Out of Town

STEBENVILLE, O.—By The Associated Press.—A tense situation prevailed here Thursday and police were prepared for quick action to prevent a repetition of the outbreak Wednesday night against the Ku Klux Klan, which culminated in a pistol fight between Darwin L. Gibson, said to be one of the local Klan officers, and a group of men who fired upon him as he was driving along a darkened street.

**Big Group Attacked**  
Earlier in the evening a group of about 100 men, said to be members of the Klan from nearby towns, was attacked in one of the downtown streets, a score badly beaten and several automobiles wrecked.

At the GHO hospital this morning it was stated that Gibson was resting easier and that his condition was favorable. At the Ohio Valley hospital, John T. Santis, whose left eye was shot out, was reported in a serious condition.

A removal of the rioting was narrowly averted at 4:30 a. m. when five automobile loads of Klansmen from East Liverpool, O., armed with shotguns and revolvers, arrived, expecting to lead aid to their organization. They were met by Sheriff Edward Lucas and deputies.

**Disarmed by Sheriff**  
Guns flushed from all machines as the sheriff halted them and he was commanded to throw up his hands. He informed them of his identity and ordered them to step from their cars and deposit their arms with him. They complied. Eight men were detained as suspicious characters. The others were ordered to leave the city.

One of the men arrested in connection with the Gibson shooting is Mike Spintich, 22, who is shot through the left hand.

## Two Held for Whipping

TTLSA, Okla.—By The Associated Press.—Two men were arrested here Thursday by military authorities on forcing martial law in connection with whipping of Walter Tuman at Red Fork, near here, on April 15. Officers say the men they have will be able to throw light on other mysterious abductions and floggings which have occurred in this vicinity.

## DUTY TRIUMPHS AS SPEED COP, MINUS LIGHTS, TAKES SELF

CHICAGO, Ill.—As Motorcycle policeman R. M. McCullough left his house he noticed the lamps on his machine were not burning. Duty triumphed. Refusing to listen to his own excuse that the battery had run down during the night, he took out an arrest slip, filled in his name and handed himself over to Desk Sergeant E. J. Mohr at the Evanston station. As it was his first offense, the sergeant tore up the slip.

## U. S. WILL PROTECT LIEUTENANT HELD FOR KIDNAP EFFORT

CINCINNATI.—Secretary Hughes declared that the United States government will "exercise utmost care to protect the interest of Lieutenant Hoover Griffiths" in prison in Germany, and will attempt to bring back Grover Cleveland Bergdall, wealthy draft evader, whom Griffiths tried to kidnap, in a telegram to the Disabled Veterans of the World War.

## MENASHA SETS SIX TO WATCH PUBLIC DANCES

MENASHA, Wis.—Six dance supervisors, who are to see to the enforcement of a recently adopted ordinance to regulate public dances, bathing beaches, street fairs, carnivals and other public amusement places, have been appointed by the Menasha city administration.

## ASKS CEMENT PROBE

LANSING, Mich.—A grand jury investigation into cement production in Michigan probably will be asked by the state, O. L. Smith, assistant attorney general, announced Wednesday. It will seek to determine whether as was charged at a meeting of the state administrative board yesterday producers have entered into a conspiracy to manipulate prices, he said.

## MINERS AND OPERATORS BOTH MAKE CONCESSIONS TO U. S. COAL COMMISSION

### PLAN THROUGH MAIL COAST-TO-COAST FLIGHTS THIS MONTH

WASHINGTON, D. C.—An announcement was made Wednesday by Postmaster General Newkirk August 21 as the date for inaugurating the experiment which it is hoped will enable the post-office department to establish mail deliveries between New York and San Francisco in twenty-eight hours.

On that day at 11 a. m. an air mail plane will leave New York, starting the through service to San Francisco. At the same time another mail plane will be leaving the Golden Gate.

The postmaster general cautions the public that as yet the project is in a highly experimental stage. The service, beginning August 21, will be a five day trial, involving the first regular flights ever undertaken in the United States, or for that matter in any other country.

## SPEEDING FARMER FIRST TO BE HELD BY DEPUTY SHERIFF

Ed. Kendhammer Arrested by  
Deputy Markle for Fast  
Driving

Ed. Kendhammer, Mormon Coulee farmer, is the first autoist to run afoul of the newly appointed deputy sheriff, named to maintain law and order on the highways of the county.

Kendhammer was arrested by Deputy Sheriff S. D. Markle, town of Shelby, and was fined \$10 and costs of \$7.72 Wednesday afternoon by County Judge Brindley. Kendhammer was charged with driving his automobile at a rate of speed faster than thirty miles an hour so as to endanger the lives of persons. He pleaded guilty.

S. P. Markle, supervisor of the town of Shelby and one of the 100 special deputy sheriffs sworn in during the past week to enforce traffic laws on the country roads, is the first deputy to make an arrest of a traffic law violator. Kendhammer operates a farm in the town of Greenfield.

## LT. GOV. COOPER OF NO. CAROLINA IN U. S. ARREST

Brother, Son and Friend Held  
With Him for Alleged  
Bank Wrecking

RALEIGH, N. C.—Lieutenant Governor W. B. Cooper of North Carolina, Thomas E. Cooper, his brother, Horace C. Cooper, his son and Clyde L. Lassiter, business associate of the family, were arrested in Wilmington Wednesday on federal warrants charging conspiracy to wreck the defunct Commercial National bank of Wilmington and fraudulent use of the funds of that institution. They were released on bond.

## ST. CLOUD PACK TO SET RECORD

ST. CLOUD, Minn.—More than 200 employees are engaged at the J. E. Barr cannery here. Every day 30,000 cans of string beans and 60,000 cans of corn are being packed. After the corn crop and the bean crop will come the tomato, cabbage and cucumber crops and the company will make the heaviest pack in its history.

## WEIRD SEA SHAPE DRIFTS TO MIAMI; WEIGHS 1,000 LBS.

MIAMI, Fla.—A strange sea monster drifted ashore on Key Biscay a few miles southeast of Miami. Weighing about one thousand pounds and dead less than 24 hours, it presented a sight never before duplicated in these waters, fishermen who saw it said.

The monster is about eight feet long, four feet in depth and only one foot across. It has a head, if it can be called that, shaped in a semi-circle measuring from back to belly across the face. Large eyes are but a few inches from the way of fins. It has two small ones, but a few inches long, back of the gills.

## EMPLOYERS STOP THEIR CHECK-OFF WHEN UNION DOES

Make Concession Demanded by  
Union as Balance for  
Union Check-off

EXPECTED TO SMOOTH  
PATH TO AN AGREEMENT

Look for Re-opening of Parley  
at Once

NEW YORK.—Prospects for a peaceful settlement of the anthracite controversy through mutual elimination of the check-off Thursday were believed to have received a severe setback, when John L. Lewis, president of the United Mine Workers of America, denounced the operators' "truce proposal as a 'misleading and confusing document' which altered proposals by S. H. Warriner, spokesman for the employers, which had been drafted by Walter Gordon, a 'union busting lawyer'."

Mr. Lewis declared the operators were all wrong in assuming that the miners in relinquishing the check-off meant that they had thrown overboard their demand number one for "complete recognition of the union and establishment of the closed shop throughout the anthracite industry."

NEW YORK.—Declaring that they were willing to abandon their demand for the check-off of union dues if the anthracite operators abandon the age old practice of checking off from employees' wages a list of twenty-nine items, including air drills, house rent, insurance premiums, and contributions to charity, the representatives of the United Mine Workers of America informed the coal commission on Wednesday that their proposal demanded a categorical reply from the operators.

After several hours of consideration, the operators decided in favor of the miners' suggestion that they abandon their check-off and they embodied their acceptance in the form of a letter to the coal commission.

## Not Aware of Grievance

The operators said they would discontinue the check-off in so far as the Pennsylvania law will permit, and pointed out that heretofore they had assumed that the practice and the approval of the employees, since heretofore such practice has never been presented as a grievance.

The operators said that in agreeing to the proposal made by the miners to the fact finding commission they assumed that negotiations would promptly be resumed and that no suspension would take place on Sept. 1. It being assumed that the wage agreement when consummated will be retroactive to that date.

Replying to the charges that the operators had ordered detectives to the coal fields to create trouble, Samuel L. Warriner, spokesman for the operators, declared that as far as he knew no detectives had been employed by any of the employers to cause trouble.

## Removes Peace Obstacle

"If the anthracite operators agree with this suggestion, it will remove any obstacle which may now exist in prevention of an immediate resumption of joint wage negotiations," read the statement handed by John L. Lewis of the miners to the fact finding commission.

To those who had been following the miner-operator negotiations the proposal of the miners came as a surprise.

The miners submitted three typewritten documents to the commission headed by Chairman John Hays Hammond. The first placed before the commission were the demands of the miners, which, short of details contained in the eleven demands, asked for the eight hour day, for nine hour workers, a wage increase, amount not stated, and the check-off.

## Str Up Trouble, Charge

The second document gave in detail the miners explanation of their reasons for desiring the check-off. The third formal statement of the miners to the commission, prepared because of news reports from the anthracite regions stating that miners were in revolt against the check-off, declared that the anthracite communities were infested with private

# MILWAUKEE TO BE HOST TO CATHOLIC SOCIETIES OF STATE

National Central Society and Affiliated Bodies to Meet on Friday

MILWAUKEE, Wis.—The National Central Society and affiliated bodies, beginning next Sunday, will hold a convention here Friday when the delegates to the Wisconsin State convention will meet at the Auditorium in a preliminary session to the opening of the national convention Sunday at 8:30 a. m.

The national delegates will begin arriving Saturday morning and will be welcomed by the state delegates at an open session of their meeting Sunday afternoon. Sunday will be given over almost entirely to devotional exercises.

The business sessions of the convention will open Monday morning, when a convention routine will be discussed and committees named. Reports of various officers are to be made Tuesday and Wednesday morning.

Thursday morning the more important speakers of the convention are scheduled to speak. Rev. Dr. Joseph C. O'Connell, O'Connell, will discuss the moral problems of the United States, and present. Rev. W. E. Haggerty, S. J., of Toledo, Ohio, will talk on national economy, and Rev. Dr. A. M. M. of St. Francis, Wis., will talk on industrial unionism in the United States.

During the week music will be furnished by the Antioch church choir, in addition to a children's chorus of 500 voices.

## ISSUE NEW RULES ON PEA LABELING

MADISON, Wis.—Several changes in the regulations for labeling canned peas, effective on June 1, 1931, were announced by the department of markets on Tuesday.

Under a new rule, unlabeled cans sold to jobbers, may be labeled after they have reached interstate destinations, without conforming to the Wisconsin requirements. The department "unlabeled cans" together with a statement of the new rule, is presented for peas which have been labeled as to size and the size and content must be indicated, provided that the cans contain less than 20 per cent of any one size.

"Size 5 and 6" is defined as a classification for "small" or "medium" peas where the can contains these two sizes.

The label of a can containing peas which have not been graded for size must be marked "ungraded" or "mixed" and, if the peas have been removed, the label must read "ungraded for size" and state the date of removal.

WINONA AND RETURN 35¢  
The hot and only famous excursion on the Superior-Twin Cities line, Wednesday, August 22nd, leaves La Crosse, 8:00 a. m., returning 6:00 p. m.—Admission 35¢.

# CENTRAL SOCIETY DELEGATES TO GET FARE REDUCTION

Delegates to the national convention of the Central society, in Milwaukee, beginning next Sunday, will get a reduction in railroad fare, according to Frank J. Hochstetler, recording secretary of the Central society. The State Federation, a branch of the national order, also is holding its biennial convention in Milwaukee at the same time. Fare reduction will apply to delegates to both conventions, provided 250 certificates are turned in to the credentials committee at the Pfister hotel by Sunday. The reduction, which would amount to half fare returning, would amount to half fare returning. The time allowance for this rate benefit is from Aug. 15 to 25 inclusive. The credentials committee will be in session in the Pfister hotel on Saturday evening and Sunday morning.

## WOMAN SUCCEUMS TO "SLEEPING SICKNESS"

POND DE LA C.—Mrs. Emma Clark, 33, wife of Mich. Clark, died in the town of Ryson, on Sunday, death being due, according to the attending physician, to sleeping sickness.

Although the disease is generally regarded as one that is an aftermath of influenza, a peculiarity of Mrs. Clark's illness is that she never had been ill. She had been well and enjoyed the best of health, her only illness being an occasional slight cold. Without apparent cause, she became sick and the disease was diagnosed as "sleeping sickness."

## MICHIGAN FORESTERS MEET AT MENOMINEE

MENOMINEE, Mich.—The annual meeting of the Michigan state court, Catholic Order of Foresters, is being held here. Mr. D. Barden, high chief master; J. B. Holder, state secretary, and Fred Zimner, state treasurer, all of Detroit, were among the officials who came to attend the sessions. Other prominent foresters present were Adolph Charbon, Michigan; Timothy O'Shea, Wisconsin; John C. Harrington, Minnesota; state treasurer, William J. Schmidt, state speaker, and Joseph Thompson, also chief master.

## FIRE TRUCK CARRIES VICTIM TO HOSPITAL

MARINETTE, Wis.—Oscar Hall, 60, suffered severe burns on his back Monday when a gasoline truck which he was driving in a grocery store, exploded. The explosion set fire to the garage and the fire truck, responding, took the injured man to the hospital.

PREFERS ELECT  
BIRCHWOOD.—At the annual meeting of the directors of the Barron County Green Bay District association, O. J. J. Barron, was elected president; Julius Postvick, chief clerk; vice president, and Frank D. Otto, Barron, secretary-treasurer.

# STATE DROPS PLAN FOR INVESTIGATION OF GAS PRICES

Cut by all Agencies Heads off Inquiry by Market Department

MADISON, Wis.—The Wisconsin department of markets announced Wednesday that there will be no investigation into the price of gasoline in the state, due to the cut made by all agencies in Wisconsin effective yesterday.

The announcement was made to the members of the Wisconsin Independent Oil Jobbers, assembled at the state capital in monthly meeting. Discussing the present cut of 6.5 cents a gallon for gasoline to the consumer at filling stations, the independent men declared they welcomed the cut and it was the result of concerted action by the independent oil companies.

The meeting was called to order this morning by S. S. Cramer, of Milwaukee, president of the organization, which was followed by an informal discussion of the price-cut. S. D. Hastings, Jr., of Green Bay, declared that the cut was the best thing for the business, adding: "We do not like to take a loss, but we are willing to stand for this cut as it is the best thing for the business."

## F. A. COTTON, NORMAL HEAD, BACK IN CITY

F. A. Cotton, president of the La Crosse Normal, has returned to La Crosse after a vacation trip. Mr. Cotton will be at his office at the normal school daily to receive callers on matters pertaining to the school.

## THREE YEAR TERMS FOR BURGLAR PAIR

MERRILL, Wis.—Jacob Turbin was sentenced to three years at Wausau by Judge A. H. Reid on Monday, on his plea of guilty in Circuit court to a charge of larceny and burglary of the Victory garage at Gleson. His pal, Fred Kries, was sentenced to the state reformatory for three years on the same counts. Kries is still being held on a third count of assault with intent to do great bodily harm while armed with a dangerous weapon. This count will be the subject of a jury hearing in Circuit court at the regular full term when he will be brought here for trial.

A CRY IN THE NIGHT, gripping pains in the vitals, cramps, weakness, diarrhoea—whether child or adult, immediate comfort and ease in CHAMBERLAIN'S COLIC AND DIARRHOEA REMEDY  
Pays to keep always on hand.

# NO PIN BOY FOR NEW AUTOMATIC SPOTTING DEVICE

MANITOWOC, Wis.—An automatic pin setting device for use in bowling alleys and which, it is said, will revolutionize the game, has been perfected here by two Manitowoc men. The device operates electrically, re-sets the pins in perfect position, returns the ball and does away completely with the necessity of employing pin boys.

The new device was demonstrated Tuesday night at local alleys at a private audience of bowling experts including newspapermen.

Patents on the device are said to have been secured.

It is said that a nationally known firm of manufacturers has spent a million dollars within the last ten years in an endeavor to perfect such apparatus.

## DENIES CLAIM THAT MILWAUKEE HARBOR KEEPS OUT COAL

MILWAUKEE, Wis.—Claim made by coal dealers here that the high price of anthracite is due to difficulty in getting lake craft to come here with cargoes because of harbor conditions, is denied by Herman Beyer, secretary of the Milwaukee Harbor commission. "There is no danger of a coal shortage here next winter," Mr. Beyer said.

"There is no difficulty in getting vessels to come to Milwaukee and there never has been. Thus far this season 67 cargoes of hard coal and 207 cargoes of soft coal, a total 274 cargoes, have reached this port, and there are more than three months of lake navigation ahead."

## AGED MAN IS KILLED AS AUTO HITS BUGGY

RED GRANITE, Wis.—Albert Rivers, 75 years old, was instantly killed and his wife was seriously injured when their buggy was struck by an automobile driven by E. W. Mitchell, 2-year-old grandson of the aged couple, was injured. Mitchell said he thought the buggy had turned to the right to allow him to pass when the horse suddenly swerved to the left to enter a driveway. The buggy was hurled thirty feet in the crash.

DRYMEN ARREST FARMERS  
PARK FALLS.—John Koschak, Del Despins and Fred Strachman, farmers near here, were arrested by federal officers on charges of violating the prohibition laws.

# EXPECTS LOW GAS WILL BE SOLD FOR NEXT SIX MONTHS

Independent at Madison Meeting Says Standard Delayed the Cut

MADISON, Wis.—The current low price of gasoline will continue for at least six months.

This was the prediction of S. D. Hastings, Green Bay, member of the National Petroleum Marketers association of Wisconsin following a meeting of the association in the capitol Wednesday afternoon.

"The reduced price will continue as long as the surplus exists," he declared. "We have been working for four months attempting to knock down the price of gasoline but the Standard insisted on holding up the price. Some of our big competitors guessed that there would not be a surplus and guessed wrong. There are two reasons for the surplus of gasoline now. One is the big supply of crude oil and the other is the perfection of the refining process which now produces twice the amount of gasoline from the same amount of crude oil."

People do not generally understand why the independent dealers could not lower the price on gasoline on their own initiative months ago, Mr. Hastings said.

"Seventy-five per cent of the oil jobbers of Wisconsin are under marginal contracts and have been paying refiners from four to five cents more

than is paid in spot sales and that is also paid by big competitors. The law of supply and demand must govern. We are all well satisfied with the trend things have taken and will continue on the present basis. The trade was in an unhealthy condition and couldn't last."

States to Drop Out  
Municipalities and states going in to the oil retailing business is but a gesture and will not last and while it does will have no effect on the trade, he declared.

The independent dealer has not been the gainer in the long sustained high price but the Standard Oil company has reaped the harvest, he declared. The fact that independent dealers were bound with price contracts has been the salvation of the business of the refiners, he added.

Asparagus is believed to be the oldest known plant used for food.

# 5 1/4 MILLIONS ARE ASKED FOR NEW UNIVERSITY BUDGET

MADISON, Wis.—A new budget calling for \$5,700,000 for the University of Wisconsin during the year 1932-33 was recommended by the board of regents at a regular meeting in the administration building here Wednesday. The budget, prepared by J. D. Phillips, business manager of the university, was drawn up on the recommendation of the finance committee of the state legislature.

OLD FIRM SOLD  
NEKOOSA.—The Brazeau Mercantile company, in business here for 25 years, was sold this week to the Walker Gwin company of Plainfield, which took possession on Tuesday.

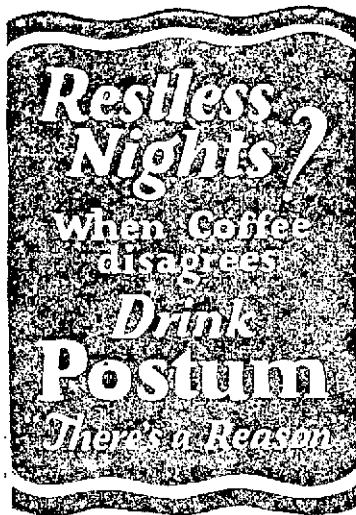

IF there are "eye-sores" around your home—shabby sills, scuffed and worn stairs or floors, a dull appearing chair, etc., why let them annoy your sensibilities by looking at them constantly?

## ACME QUALITY VARNISH

will transform them into surfaces you will admire. A little goes far and improves things wonderfully. Come in and let us tell you how to freshen up home surfaces with Acme Quality Varnish.

# EN-AR-CO Motor Oil

Guarantees Less Repair Bills Because It Gives Real Lubrication

# EN-AR-CO Gear Compound

For Transmissions and Differentials

## En-ar-co Motor Oil Is Real Lubrication

Here's Why—All refiners make lubricants just as all cooks make biscuits, yet there is as much difference in oils as there is between the delicious light, flaky biscuits mother makes and heavy, soggy apologies for biscuits some restaurants serve. In each case the raw materials are practically the same, but the "making" is different.

In making En-ar-co Oils we average over a million tests a year. It is only by this multiplying of tests that perfect products can be made. This thoroughness in our Scientific Refining process is the protection offered to users of our products.

Your motor will run better and last longer if the Lubricating Oil is taken out every 500 miles and fresh oil put in. We do it for you with  
**EN-AR-CO MOTOR OIL**  
Charging Only for Oil Used

**WHITE ROSE GASOLINE**  
Quick starting, smoother acceleration, pure, free from moisture—powerful.

# GOOD GRAIN CROP BUT SHORT HAY YIELD FOR STATE

Fair Yields of Small Grains Predicted in August Survey

## HAY CROP SHORTAGE IS MARKED FEATURE

Beet Acreage Large and Milk Prices High

MADISON, Wis.—A promising corn crop, a short hay crop and fair yields of small grains feature the August report of the Crop and Livestock Reporting Service at Madison. In northern Wisconsin, crop conditions are generally satisfactory. The July drought greatly lowered conditions in the western and southwestern part of the state. In the southeastern part, crops are fair to good, and in the remainder of the state conditions are very uneven depending upon the occurrence of local showers which relieved the drought.

### Corn Crop Promising

The corn crop in Wisconsin is very promising and is uniformly good throughout the state. Although the crop was at a standstill in many parts of the state during the dry period of July, later rains have given prospects for an excellent crop. The condition of 96% of normal is 3 points above last year's condition at this time. Forecasted production of 93 million bushels is 6 million bushels greater than the August forecast last year.

The forecast of the United States corn crop is 3% above last year's production.

### Hay Crop 72 Per Cent of Last Year

The short hay crop in the southern half of the state is one of the marked developments of the crop year. This year's crop for the entire state falls short by 28% of last year's production. In the southwestern part of the state the crop is only 53% of a full yield, and in most sections only two-thirds of a crop is reported.

A wet, backward spring followed by hot, dry weather in June and early July affected hay and pasture to a greater extent than the other Wisconsin crops. Alfalfa maintained its condition better than the other varieties of hay, the condition being reported as 86% for alfalfa, 67% for clover hay, and 65% for timothy hay.

The forecast of the United States tame hay crop is 16% less than last year's production.

### Oats Below Average

For the state as a whole no change took place in the condition of oats since July 1. Rainfall during July was very irregular, small areas getting local showers and adjoining communities receiving no rain whatever. Accordingly yields of oats will vary a great deal. Condition of oats on August 1 or at time of harvest was 81% of normal, which is 11 points below last year's condition. Production is forecasted to be 92 million bushels, or 5% above last year's production.

### Barley, Rye, Wheat Less

Condition of barley at time of harvest was 82%, compared to 50% last year. Rains in early July were helpful, and the crop had generally been cut previous to the severe drought. Production is forecasted to be 13 million bushels, which is 6% less than last year's production.

The forecast of the United States barley crop is 9% above last year's production.

The preliminary yield of rye in Wisconsin is one-half bushel below last year's yield. A yield of 16 bushels to the acre indicates a production of 6 million bushels, which is 12% below last year's harvest. Quality of rye is reported as good.

The forecast of the United States rye crop is 22% below last year's production.

Winter wheat yield in Wisconsin is placed at 18 bushels per acre, or 1.6 bushels less than the preliminary yield last year. Spring wheat showed a condition at time of harvest of 77% of normal. The combined production of winter and spring wheat is forecasted to be 2 1/2 million bushels, or 17% below last year's production.

The forecast of the United States wheat crop is 8% below last year's production.

Pastures Poor During July

Except in the northern part of the state, pastures in Wisconsin were

# ASPIRIN

Say "Bayer" and Insist!

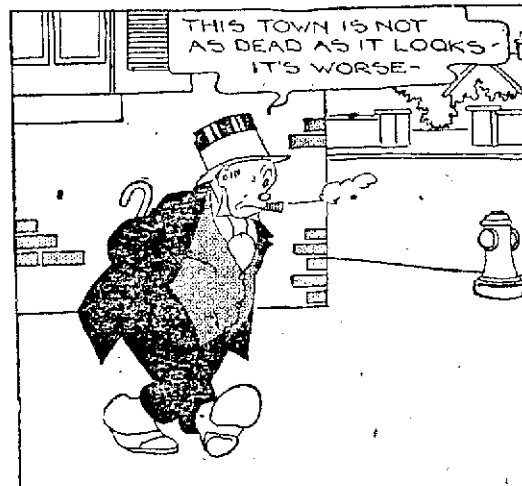

Unless you see the name "Bayer" on package or on tablets you are not getting the genuine Bayer product prescribed by physicians over twenty-three years and proved safe by millions for

Colds	Headache
Toothache	Lumbago
Rheumatism	Neuralgia
Pain, Pain	

Accept "Bayer Tablets of Aspirin" only. Each unbroken package contains proper directions. Handy boxes of twelve tablets cost few cents. Druggists also sell bottles of 24 and 100. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

## BRINGING UP FATHER

short and dry. Condition in the southwestern part of the State is reported as low as 48 percent of normal. Generally, pastures had been grazed short and failed to make much growth before droughts developed. Rainfalls of late July and August, together with cooler weather, are expected to bring about an improvement.

### Apples the Same

Fire blight, which seems to be very general in the State, and dry weather have lowered the condition of apples to 73 percent of normal. The condition indicates a crop of the same size as last year. The condition of commercial orchards is better being 50 percent.

Commercial apple growers of the State have made a report to this office on the progress of the total apple crop that consists of summer varieties, fall varieties, and winter varieties. The reports indicate that the apple crop in prospect consists of 27 percent of summer varieties, 49 percent of fall varieties, and 24 percent of strictly winter varieties. The most frequently reported summer varieties were the Duchess, Yellow Transparent, Red Astrachan, and Raspberry. The Wealthies, McIntosh, McMahon, and Snow are reported as the most general fall and early winter varieties. The Northwestern Greening, Delicious, Tolman Sweet, Ben Davis, and Jonathan are given as the leading varieties in the winter class.

### Beet Acreage Larger

Wisconsin farmers have increased the acreage of sugar beets this year by 45 percent. The relatively high condition of 87 percent on August 1 forecasts a production of 173,000 tons, or 40 percent above last year's production. The sugar beet production for the United States is forecasted to be 26 percent above last year.

### Buckwheat Acreage Reduced

The buckwheat acreage in the State is estimated to be 10 percent less than last year and the condition on August 1 was 75 percent of normal. Early sown buckwheat is in good condition, but that which was sown late is backward because of the dry weather of July. The forecasted production of 225,000 bushels is 18 percent less than last year's crop. The forecast of the United States in growing cabbage.

buckwheat crop is 10 percent less than last year's harvest.

### Milk Prices Higher

The July milk price this year shows a very slight increase over that of June, the average price received by farmers for July milk being reported at \$13.5 per cwt, as compared to the June price of \$13.3. This year's July price was 43c per cwt. more than a year ago. The bottom of the decline in milk prices was reached in June 1921, when the average price of milk was \$12.6 per cwt. Since that time the trend has been constantly upward. The average price for the first seven months of 1922 are 37 percent above the prices for the same period last year.

### Cabbage Area Large

The cabbage crop in Wisconsin is forecasted to be 13 percent below last year's production, according to the State and Federal Crop Reporting Office at Madison. The lower production is due chiefly to the crop being in poorer condition than a year ago, this year's condition of 88 percent being 7 points below last year. The forecast is 141,000 tons as compared to 163,000 tons last year.

Last year's cabbage acreage in Wisconsin was one of the largest on record in the State. With per prices for cabbage last fall, a marked decline in acreage might have occurred, but the higher prices that were paid for cabbage taken out of storage have undoubtedly influenced farmers to make only a slight reduction. This year's acreage is 3 percent less than last year. In Racine County, the largest growing county, the acreage has increased 2 percent. In Manitowish County, the second largest cabbage county, has maintained practically the same acreage as last year. A reduction of 10 percent has taken place in Kenosha County. In Fond du Lac and Pierce Counties the cabbage acreage has been reduced 6 percent and 25 percent respectively.

The preliminary estimate of the acreage of late cabbage in New York State shows an increase of 6 percent. Condition in New York State is below average being reported as 80 percent, or 6 points below the average condition for the past nine years. New York and Wisconsin lead all other States in growing cabbage.

## U. W. HOSPITAL TO GO AHEAD DESPITE FAILURE OF FUNDS

Regents Decide Not to Ask Special Session to Supply Appropriations

MADISON, Wis.—The reduction in money available for the university will not interfere with the construction of the Wisconsin General Hospital although meaning a curtailment for the university building plans, the university board of regents announced on Wednesday.

With the university board of regents declaring that they will be able to get along without a special session of the legislature and the same methods of financing being available for the normal schools the likelihood of a special session has grown remote.

The special session had been discussed as a means of providing funds for the higher education schools because appropriation bills were killed by the legislature. There is a continuing appropriation for both normals and university.

In case of the university there is more money available than if the appropriation bill had passed. The regents declared, however, that they will stay within the legislative intent and will not use all of the money that they might.

The normal regents will give a statement of their needs to Gov.

## For New Styles and Pretty Arms

(Beauty Notes)

Women are fast learning the value of the use of delatone for removing hair or fuzz from face, neck or arms. A paste is made with some powdered delatone and water and spread on the hairy surface. In 2 or 3 minutes it is rubbed off, the skin washed and every bit of hair has disappeared. No future will result if you are careful to buy genuine delatone and mix fresh as wanted.

Malta this week presenting the alternative of getting money out of the general fund or through a special session to carry them through.

## FOREIGN DOCTOR CAN ISSUE BOOZE

MADISON, Wis.—Every doctor in the state can write liquor prescriptions regardless of whether or not he is an American citizen.

On request of Prohibition Commissioner Sachtjen, J. B. Messerschmidt, assistant attorney general, held that the fact that a man is a foreigner is no bar to his receiving a permit to issue liquor prescriptions.

## NECK BROKEN: RECOVERING PLYMOUTH, Wis.—Stanley Nussowsky, quarry worker, who suffered a broken neck by diving into Mullet river a week ago, is still at the Plymouth hospital. He is paralyzed, but has regained his speech, and the attending surgeons believe that an operation will restore the use of his limbs.

## PARADE OF LEGION 2,000 STRONG IS SUPERIOR FEATURE

Legion Auxiliary, all in White, Marches With Own Colors and Music

SUPERIOR, Wis.—Headed by a fifty piece band, 2,000 members of the American Legion and Ladies' auxiliary paraded the principal streets of Superior Wednesday night before thousands of spectators.

The American flag, borne by a grand army man, and flanked by two legionnaires with rifles, passed in a hush.

Then rank on rank, marched the former soldiers, sailors and marines of the United States. In perfect cadence with lines dressed, they formed a marked contrast to the straggling walk that ex-troopers often affect.

## This is my good morning!

And here's to your happiness—a brimming bowl of these wonderful Post Toasties—the golden-brown flakes of toasted corn.

They're so crisp, and savory—and altogether delightful—a splendid source of energy, too. Serve them whenever you're hungry. Ready in a moment—and a usual serving costs less than a cent.

To get the best Corn Flakes, order Post Toasties by name from your grocer—be sure you get the Yellow and Red wax-wrapped package.

## Post Toasties Improved CORN FLAKES

# SWEET SINGER FROM SHELBY ON BROADWAY

NEW YORK.—Fleek Broadway records with only a shrug the presence of the countless girls who trek here with high hopes of stardom and sit for days in the outer offices of the theater managers, until beaten in spirit and financially embarrassed they seek mental tasks.

With Patsy Salmon, christened Patricia, it is different. If you do not know Patsy, she is the "sweet singer of Shelby, Mont." Broadway awaits her arrival with the eager expectancy that a family waits the arrival of a new daughter-in-law. For Patsy comes to New York with two distinctions: she is the first girl who without conscious effort on her own part was projected from the leading role in a traveling tent show to stardom before the most critical audience in America; and second, she is the first girl who ever entered a personal musical review without first passing before the eyes of the nation's most noted judge of public opinion.

Like Lillian Wald, she comes out of the west. Sunday she steps off the train from somewhere in Montana. Celebrities of the newspaper and the world will meet her and extend greetings.

Broadway, jaded as it is, loves a romance that is clean and back of Patsy's coming are all the elements of sentiment. New York newspapermen sent out to Shelby to cover the fight found it rather hard to dispose of their time during the evenings.

Hot dog stands and wild west shows moved into the fight town a week or so before the fight to participate in the "can-up."

Among these traveling vans was a song and dance show that pitched its tent on a mild plot just off Main street. The New York newspapermen defied in one night to kill time.

Patsy leaped before them, a beautiful little thing with a shock of red hair, bobbed, of course, and a voice of rare sweetness. The newspapermen ignored the fight. They described Patsy as a sweet, unspoiled child, whom after column appeared in the New York papers.

A New York theatrical man began to inquire into Patsy's possibilities. His wires to Shelby brought back the information that the show, finding returns there meager, had moved on to more profitable grounds. Where, nobody in Shelby knew but an advertising campaign finally found Patsy.

And the city that worships stars only, is ready to render homage at the feet of Patsy.

## She's "Too Young" to Wed Her Divorced Husband

MRS. BERTHA SEAL SAYRE. ST. CLAIRSVILLE, O.—Too young to marry the father of her child? That's the peculiar predicament of Mrs. Bertha Seal Sayre, pretty 20-year-old girl mother, living here. And all because of a strange trick in fate.

It's this way: Until a few weeks ago a girl could wed in Ohio on attaining the age of 18. But the last General Assembly changed her status. Now she must wait until she's 21.

After the war Bertha Seal met Clarence Sayre, just back from overseas. They were married when she was 18.

A son, now a year and a half old, was born. Father and mother had a falling out. They went into the divorce court. The judge granted a decree.

Followed then a mining accident. Sayre was seriously injured. Mrs. Sayre and the baby called on him in the hospital. Old troubles were forgotten and reconciliation was effected.

Mrs. Sayre hurried to the court house to obtain a license. But the clerk turned her down.

"Too young," he explained.

The wedding of course, can go on if Mrs. Sayre's folks don't object. But she refuses to ask parental consent.

"Oh wait," she declares. "She'll be 21 on Oct. 26. Then the nuptials will take place."

Legislators play many odd pranks. But it would be difficult to find one more unusual than they unwittingly perpetrated on Mrs. Sayre.

## Suggestions for the Household

**PEELED POTATOES**  
To prevent potatoes turning black add a teaspoonful of vinegar to the water in which they are boiled.

**KITCHEN CLOCK**  
The efficient housewife will have a wall clock within the sight of her kitchen stove so that she may time her bakings without effort.

**SETTING TABLE**  
In laying your table, place all flat silver in the order of its use. Then the guests start with the piece farthest from the plate on either side.

**FISH CAKES**  
Bits of green peppers and a few drops of onion juice add to the tastiness of the fish cakes.

**PROMINENT FURNITURE**  
In furnishing your home avoid those articles which stand out in the

shop, for you may be sure they will be even more noticeable and prominent in your own home.

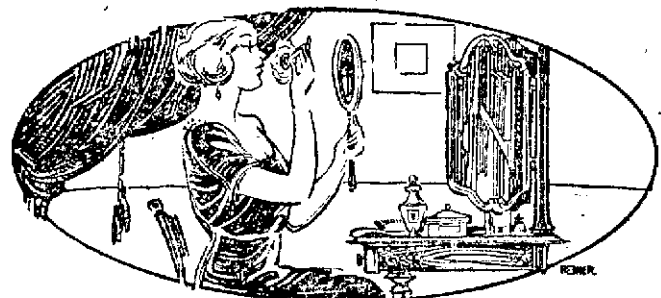

**BED SPRINGS**  
If your bed springs are not covered you should put a covering of strong unbleached cloth over them to protect the bedding and the mattress.

**WALL HANGINGS**  
For walls with plain coverings use striped or figured hangings, but for those with figured walls hangings should be plain, repeating the dominant color note in walls and carpets.

**POLISHING MIRROR**  
Sprinkle very fine salt on a piece of wool and polish your mirror with it.

**STRAW HATS**  
Discolored straw hats may be bleached with sulphur fumes.

## ARE YOU TRYING TO CHEAT TIME?

You know you can't keep on fooling people by constant use of rouge, lipstick and powder puff. Old Dad Time can't be cheated. But he can be deterred from marking your face with his tell-tale lines and furrows.

Exercise—good, physical, healthful exercise—will do it. To show you how, The Tribune has sought the aid of Anne Dolan, noted New York physical culture expert. She has consented to prescribe a number of beauty exercises for your benefit.

There will be five of these, one daily beginning tomorrow. Meantime, read who she is and what she thinks.

## How To Keep Your Youth and Beauty Beauty Expert Gives Lessons

(Editor's Note—Exercise, not rouge, will do it. No you are not getting any flabby facial fluff that you might expect in a series of articles on Beauty. These articles starting today introduce you to Miss Anne Dolan, one of the most famous physical culture experts in the country. These articles are written especially for the benefit of women who would remain beautiful despite their advancing years. Today introduces Miss Dolan to you. There will follow a series of articles, lessons in beauty and health culture.)

By Marjorie Hale  
NEW YORK.—One of Old Age's most formidable enemies today is Anne Dolan, titian-haired, Irish and determined, who is teaching thousands of women how to stay young and healthy.

Her physical culture studio in New York is one place where you are sure to see celebrities—beauties of the stage and screen who can't afford to show their years, society women who could afford to but won't, and business and professional women who are too clever to let anything outwit them—all learning her secrets of health and beauty.

"Today the woman of 40 who is not as lithe of figure and as radiant of complexion as she was at 20 is neglecting the opportunity of living in this enlightened age," Miss Dolan says.

"Any woman will naturally protect herself from the inroads of time if she preserves her health," she continues. "When you see your skin becoming sallow and wrinkled, when sagging muscles and increasing flesh destroy the symmetry of the figure, it is only nature's way of warning you that your youth is dying and must be revived."

"Fading beauty is dying tissue, and scientists have proved that as the life-giving cells of the body are destroyed, physical care and hygienic living can restore them."

"We must supply this new energy to our vital forces. We must add nature in restoring perfect harmony so that the rich, life-giving blood can renew our strength and vitality and restore the youthful contour of face and figure through the glow of perfect health."

Many women make the mistake of

MISS ANNE DOLAN

flaunt age as much or more than gray hair and wrinkles.

"So why preserve merely surface beauty when the real symbol of youth, the slight athletic figure, becomes a mass of flabby, fatty tissue? she asks. "Keep up your joy in life and let others notice it. Be 100 per cent efficient instead of 50."

**BARN DANCE**  
AT EINEAR SEVERSON,  
WEST SALEM.  
SATURDAY, AUG. 18, 1923.  
GOOD MUSIC.

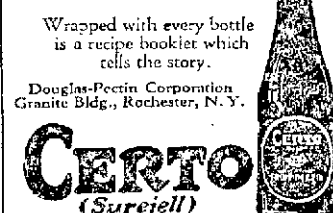

## Jam & Jelly Making now an exact science

Fresh Fruits are Plentiful!  
Use the short CERTO-Process for making jam and jelly with Berries, Cherries, Peaches and other fruits in season. You will find they are the best jams and jellies you ever tasted.

CERTO is sold by grocers everywhere or sent postpaid for 35 cents.

**1 MINUTE'S BOILING**  
**2 POUNDS OF FRUIT**  
**3 POUNDS OF SUGAR**  
**4 OUNCES OF CERTO**  
**5 POUNDS OF JAM**

Wrapped with every bottle is a recipe booklet which tells the story.

MISS DORIS WAGER of Dubuque is the guest of Mrs. S. E. Taylor, 223 North Eighth street.

MISS ETHEL MULDER returned Wednesday from Evanston, where she has been attending the Northwestern university.

ON WEDNESDAY afternoon a party of neighbors and other friends gathered at the home of Mrs. Julius Gilberg, 719 South Sixteenth street, to assist in the celebration of the birthday of the hostess. A picnic lunch was served and Mrs. Gilberg was presented with a gift in token of the anniversary.

Friday on a motor trip to Balsam Lake, Wis., where they will spend a vacation at a cottage at Hunky-Dory Farm. Enroute they will spend the week-end with friends in Minneapolis. Returning they will stop at Marshfield, Wis., to be guests of Dr. and Mrs. F. E. Turgeson.

L. D. Richardson, of Fargo, N. D., president of North Dakota Independent Telephone Co., was a La Crosse visitor Wednesday. Mr. Richardson was formerly manager of the Bell Telephone Co. of this city.

The marriage of John Schroeder and Madea Bull, both of Prairie du Chien, took place in the Winona courthouse on Tuesday. Judge Loeck performing the ceremony.

**BARGAIN EXCURSION TO WINONA**  
On the steamer Washington Wednesday, August 22nd. Leaves La Crosse 9:00 a. m., returns 6:00 p. m. Adults only 35c, children under 15, years 25c.—Advertisement.

**STOP. ITCHING SKIN**  
Zemo the Clean, Antiseptic Liquid, Gives Prompt Relief

There is one safe, dependable treatment that relieves itching torture and that cleanses and soothes the skin. Ask any druggist for a 35c or \$1 bottle of Zemo and apply it as directed. Soon you will find that irritations, Pimples, Blackheads, Eczema, blotches, Ringworm and similar skin troubles will disappear.

Zemo, the penetrating, satisfying liquid, is all that is needed, for it banishes most skin eruptions, makes the skin soft, smooth and healthy.

## BEJWELED COIFFURE

This headdress of platinum and pearls is not, as you might suspect, a device to cover up an uneven part, but is the very latest accessory to wear with your evening frock. And by the way, you might just as well save your money for some costly jewels, for they are to be the thing this winter, according to Paris.

## MAN TAKES STROLL WEARING SMILE, BUT NOTHING ELSE

ST. PAUL, Minn.—After Adam ate of the tree of knowledge, he became embarrassed and wore a fig leaf.

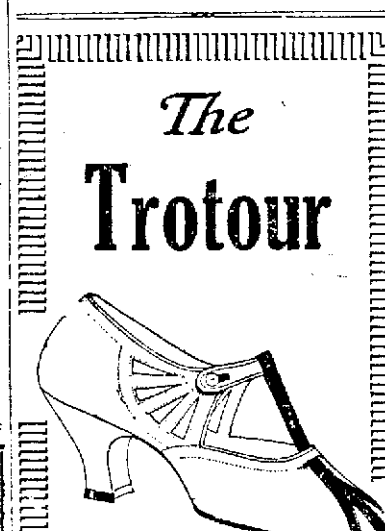

Not so with Irwin Bendeck, laborer, who decided it was too warm to wear anything this morning and proceeded downtown arrayed in a smile.

Police found him before he reached the downtown section. He was taken to a hospital for observation.

**BLANKET WRAPS**  
In England the younger generation is reported to be wearing blanket wraps composed of a perfectly straight piece of cloth slung around the shoulders and kept in place by a cord. To slip on after tennis or to wear in the cool of the evening these garments are ideal.

**HAND-PAINTED ROSES**  
A white taffeta frock with a full skirt and a close bodice is trimmed with hand-painted red roses and an occasional blue ribbon.

## MAYOR REPORTS TO LEGION HE'S LOST CITY KEYS

La Crosse Delegation Places  
Two Men on Important  
Convention Committees

## HAVE NATIONAL COMMANDER AS CAR-MATE ON THE TRIP

Adkins, Hansen and Boyle At-  
tend from La Crosse

SUPERIOR, Wis.—(Special to the Tribune.)—The La Crosse delegation to the American Legion state convention at Superior, Wis., today morning, pretty well tired out from the all night ride, but all set for the big event which they knew were to come.

In the same car with the La Crosse delegates, from St. Paul to the convention city, was Alvin M. Owsley, national commander of the legion, who made the trip to Superior from Farhault, Minn., where he addressed the Minnesota legion in convention on Tuesday. Owsley, fatigued from his exertion on Tuesday, was both to roll out of his comfortable berth, but in answer to the rather savage question "Is you going to get up today, or ain't you?" he braced up, sleepy-eyed into the dressing room.

None of the sleep remained in his eyes, however, when he addressed the joint meeting of the legion and the woman's auxiliary later in the morning at the convention hall. In his impassioned address he exhorted the legionnaires to pull together for a common cause and to uphold the flag.

Mayor "Lost Keys" In his address of welcome to the legionnaires Mayor Fred A. Baxter of Superior regretted his inability to present the keys of the city to the boys, saying that they had been lost. District Attorney Robert Kennedy, following the mayor, asserted that he would place the sheriff or any of his deputies who returned the keys, under arrest until the close of the convention.

A greeting from Le Baron L. Harper, General Chairman of the convention committee of the Superior post, was responded to by E. Ryan Duffy, commander of the state department. Alfred S. Eaton, commander of the Wisconsin department of the G. A. R., and A. T. Ledin, commander of the Wisconsin department of the Spanish War Veterans, represented their respective organizations and greeted the legion men at the opening session.

Local Men Honored G. L. Hansen, La Crosse, was named to the rules committee and Vilas J. Boyle to the resolutions committee. Other committeemen from the seventh district, of which La Crosse is a part, are: A. E. Isenberg, Baraboo; R. E. Nuzum, Chocoma; Amori, Kaukauna; N. P. Rowser, Redwood; committee to select next convention site: E. Jensen, New Lisbon; constitutional amendments, and J. W. Schmidt, Neillsville, finance and dues committee.

A complete program of work and play has been outlined by the Superior post for their visiting buddies. Lincoln K. Adkins, George L. Hansen and V. J. Boyle are the La Crosse delegates.

## HORTICULTURISTS ON TOUR OF THE COUNTY ORCHARDS

At the Chamber of Commerce last night at 6:30 a light informal lunch supper was served to the visiting members of the State Horticultural Society, after which the regular program of the evening was carried out.

A piano selection by Alden Smith of Ashland began the program, followed by a talk on the work of the local Horticultural Society by Professor L. C. Hough of Oshkosh. M. A. Rasmussen of Oshkosh talked on exhibition. The Mississippi drainage project and its results was the subject of a talk delivered by Doctor A. T. Rasmussen of La Crosse. Alden Smith gave a vocal solo accompanied by Miss Tucker of Madison. An address by W. D. Woods of La Crosse on the possibilities of horticulture completed the program for the evening.

This morning the society left the Stoddard Hotel at 6:15 on a 50 mile tour of the orchards of the county.

## DAUGHTERS AND SONS OF NORWAY PLAN A PICNIC ON SUNDAY

The Daughters and Sons of Norway will hold their annual picnic Sunday, August 19th at Oehler's Cave. Members and their friends are cordially invited to attend. A bus will leave Charles and 5th streets at 9:30 a. m. making stops at Market Square, West avenue and Jackson and the end of car line on Mormon Coulee road, with a return trip to Mormon Coulee car line for more passengers. Games of all kinds will be played starting promptly at 2 p. m. The Daughters and Sons of Westby and Coon Valley will be the guests.

## NEWSBOYS ATTEND FUNERAL IN BODY

To pay a last tribute to the bier of a fellow comrade a large number of local newsboys attended the funeral of Arne Hoff in a body. Cars for the newsboys were secured by the Levy brothers. The funeral took place at the home of Arne Hoff's parents, Mr. and Mrs. A. N. Hoff, 1900 Campbell road, at 2:30 Thursday afternoon.

## FORD WILL SPEND \$7,000,000 FOR 'ADS' IN ONE YEAR

DETROIT, Mich.—The Ford Motor company will soon begin to advertise in newspapers and publications throughout the country, after five years without advertising in the name of the company.

A contract for \$7,000,000 advertising during the next year was announced Wednesday by the newly formed advertising department of the Ford company. The contract was let to the Brotherton advertising agency, New York, according to Morton T. Brotherton, advertising manager for the Ford company.

Until five years ago the Ford company was a regular user of newspaper space, but at that time the Ford advertising department was disorganized and advertising placed only by Ford agencies. The advertising department recently was reorganized.

## MANITOWOC SHIP BUILDER MAY BE U. S. INVESTIGATOR

MANITOWOC, Wis.—Summoned to Washington on call of the United States shipping board, Charles C. West, president of the Manitowoc Shipbuilding corporation, may be delegated by the board to visit Europe to conduct investigation relative to conditions affecting shipping interests of the United States government and the shipping board.

## PRELIMINARY PACT SIGNED FOR REPORT TO THE GOVERNMENT

(Continued from page one)

Under the subsoil petroleum section American oil companies' rights to subsoil acquired prior to the going into effect of the Queretaro constitution on May 1, 1917, remain intact. After that date the provisions of the Queretaro constitution relating to the subsoil prevail, although the nonretroactivity of those provisions, notably the much mooted article 27, is firmly established.

Nothing is known officially relative to the subsoil petroleum rights of Americans who acquired lands prior to May 1, 1917, but who did not explore or announce intention to exploit their lands for oil. It is understood the Mexican government is unwilling to assure them their rights, but the United States delegates specifically reserved the rights of these individuals.

## Fixes Agricultural Land Status

Under the agrarian section of the outstanding American rights acquired prior to the 1917 constitution remains intact under the laws then in force and the provisions of the constitution of 1857, but lands acquired since 1917, it is agreed, are subject to the division of huge estates and also to subsequent agrarian reform laws.

While the American delegates have been disposed not to press their viewpoint regarding immediate cash compensation for American owned lands which the government is expropriating in pursuance of its policy of restoring communal lands to towns and villages from which they were taken, a strong stand has been maintained against expropriations illegally made under "color of law." It is understood assurances were secured that the government will make immediate and just cash payments for lands illegally taken or make immediate restitution, drive off squatters and annul the decrees of local agrarian commissioners.

The mixed claims conventions are intended to play a most important part in settling American claims for lands unjustly expropriated.

## Delegates Leave

MEXICO CITY.—By The Associated Press.—John Barton Payne and Charles E. Warren, who have concluded their work at the pre-recognition conference, left Wednesday night for Washington aboard a special train to submit to President Coolidge and Secretary Hughes the records of the negotiations. They expect to arrive in the capital next Monday.

After the records had been signed Wednesday, it was authoritatively learned that an agreement had been reached to have the president of the permanent court of international justice at The Hague appoint neutral umpires for the United States and Mexican claims commissions, which are to be created through the revolutionary and mixed claims conventions, if and after diplomatic relations are to be resumed.

## BODY OF MISSING WOMAN FOUND

VALLEY CITY, N. D.—The body of a woman believed to be that of Mrs. Sam Aandahl, who has been missing two months, was found in the woods near the Valley City State Teachers College last night. Receipts found in the pockets of the clothes of the body are said to bear the name of Mrs. Sam Aandahl. The body looked as if it had been there about two months.

## OBITUARY

ARNE H. HOFF FUNERAL  
Funeral services for Arne H. Hoff, who was drowned Monday morning while bathing in the Mississippi river, off Pettibone park, were held Thursday afternoon at the home of his parents, Mr. and Mrs. A. N. Hoff, 1900 Campbell road. The Rev. M. R. Philpott, pastor of the West Avenue M. E. church officiated. Arne Hoff was born in this city November 11, 1905. He was a student at the La Crosse high school having attended one year. Surviving him are his parents, a sister, Marie E. Hoff, and two brothers, Elmer H. and Olaf N. Hoff.

JOHN NUSS  
John Nuss died at his residence, 721 State street, at 3 o'clock Wednesday morning after a short illness. He was born in Russia. He leaves a wife, two sons and three daughters. Funeral announcement later.

## DEPLORES DECLINE OF INTERURBAN IN THESE AUTO DAYS

Wisconsin Professor Says They  
are Causing More Con-  
gestion

OSHKOSH, Wis.—Professor James T. Root of the University of Wisconsin in his address before the summer conference of the Electric Railway section of the Wisconsin Utilities association at Oshkosh today declared that it is a real public misfortune that the extension of city electric railway systems and the building of short interurban lines is practically at a standstill.

"Already this stoppage of construction is resulting in increased congestion of our cities," he said, "and unless the public enters into a more sympathetic appreciation of the necessity of co-operating with the electric railways this situation will grow worse. Electric railways have spread out our cities into attractive suburbs resulting in better health, more normal living conditions and in tremendous increases in taxable values on improved property."

Asks Public Aid  
"Anything which may work to bring about the bettering of the present status of the electric railways, which may help produce a better understanding between companies and the public, will be of mutual help to riders and lines, will raise public health and happiness, will increase the value of city and suburban property," he declared.

Prof. Root referred to earlier days of the car line saying that in this era cities were frequently glad to assist companies in building lines and systems, but that this was now changed into an era of limitation. The speaker, in conclusion, said he believed that closer co-operation between the university and electric railway companies in the development of students for work in the industry and the solution of transportation problems would be of general advantage to the public, the university and the companies.

Praises Utility Men  
R. W. Arnold, chairman of the electric railway section of the Wisconsin utilities association, asserted that Wisconsin Electric railwaymen are leading the nation in solving the transportation problems due to the stimulating spirit of co-operation manifested by the different companies.

"Wisconsin electric railways represent an investment close to \$100,000,000," he said. "They pay annually to state, cities and villages an aggregate of about \$650,000 in taxes, and carry nearly 270,000,000 passengers a year. They operate over 995 miles of track. Their great service is not fully appreciated by the public."

"Further growth of the electric railway systems lies largely in the development of auxiliary motor coach and bus service. No one is better able to operate dependable motor bus service than the electric railway companies."

## RALPH INCE HELD FOR BEATING UP ACTRESS' BROTHER

NEW YORK.—Ralph W. Ince, moving picture director, must appear before the Westchester county grand jury next Thursday morning and explain the terrific beating he administered, on August 8, to George Stewart, younger brother of the motion picture star, Anita Stewart.

Other members of the automobile party during which the fight occurred will be called. Because of their relationship to the young man, Anita Stewart, her mother, and her attorney, Moses L. Malevitsky, will be subpoenaed as jury witnesses.

Young Stewart has taken a turn for the better. Dr. William Friedler, physician in charge of the case, said today that the youth probably will recover and be able by next Thursday to tell his own story to the jury.

## EMPLOYERS AGREE TO STOP DOCKAGE OF THEIR BEHALF

(Continued from page one)

employees of the anthracite and bituminous operators, attempting to create a situation where a strike in the anthracite fields would be unavoidable.

Still Are Obstacles  
Miners' union officials and representatives of anthracite coal operators went into conference Thursday with the United States coal commission equipped with a provisional agreement looking to a continuation of anthracite coal mining after September 1. That there were still obstacles to be overcome, however, before an assurance of averting another interruption in anthracite production, appeared early in the discussions.

John L. Lewis, president of the United Mine Workers, notified the commission that the union was prepared to accept the operators' agreement made last night to abandon the "check-off" system.

Mr. Lewis also told the commission that in offering to resume wage negotiations for a new contract which would fix wages and terms of employment in the anthracite regions, the union would not agree to let the mines operate after September 1 if a contract agreement had not been perfected by that date.

Samuel D. Wardner, chairman of the anthracite operators' policy committee, in notifying the commission of the operators' readiness to abandon the "check-off" system, took the position that the miners would agree to end the threat of suspension in anthracite operation in September.

## ORDERS HARDING STAMP

WASHINGTON, D. C.—President Coolidge approved the issuance of a memorial stamp, bearing the likeness of President Harding, in the two cent denomination and printed in black.

## SMALL-THOMPSON SEEN AS RADICAL CAMPAIGN HEADS

Believed they Plan to Rival  
Farmer-Labor Party  
Tactics

CHICAGO, Ill.—By The Associated Press.—Illinois, which has held rigidly to the two chief political parties for years and in which the farmer-labor party has not gained a foothold, bids fair to rival Minnesota, Iowa and other states west of the Great Lakes as a stamping ground for progressives and alleged radicals during the next year, some political observers were inclined to agree Thursday.

Governor Len Small, at a political rally in his behalf Wednesday, in his home town of Kaukauna, announced he would seek re-nomination on the republican ticket next year but this statement, expected for several months, did not cause as much discussion as the enunciation of principles adopted at the convention and approved by the governor.

Small's Platform  
As to the plank in his platform for re-election, the governor said he believed in continued hard road construction, completion of the Illinois waterway, abolition of the injunction in labor disputes, continued high inheritance taxes, the initiative and referendum, people's ownership and operation of Chicago transportation under a five cent fare, equalization of taxes on the principle that those best able to pay should bear the heaviest burden, continuation of the direct primary, fair deal for the farmers, taxation of wealth now untaxed and home rule for every municipality.

William H. Thompson, former mayor of Chicago, who has been mentioned as a possible opponent of Senator McMillin for the senatorial togo next year, caused scenes of wild excitement among the 7,000 persons at the meeting when he said: "They told me in Washington last week that they heard the voice of Minnesota recently. Next year they'll hear the voice of Illinois."

## GASOLINE SLASH BRINGS PROBLEMS TO THE INDUSTRY

MADISON, Wis.—Thomas Amle, legal examiner of the department of marketing declared Thursday that it is his opinion that the department he represents, has the power to declare that rebates by jobbers to retailers of 6-8 cents a gallon on gasoline constitute an unfair practice and that the department, by a special order, may enjoin such rebating.

The drop in price of gasoline, while not wholly unexpected, he said, caught all jobbers and dealers with large quantities of gasoline on which they must take a loss. There are two questions he said which arise. If the jobbers are to reimburse the retailers for gasoline on hand, what date of purchase should this cover, and if the price should be raised, as in South Dakota, from sixteen cents to twenty cents, will the dealer reimburse the jobber?

Should these questions develop seriously, Mr. Amle said, it would be the duty of the department of marketing to pass on the question at a public hearing.

## MILWAUKEE IS M. P. STATE HEAD

MILWAUKEE, Wis.—F. W. Seeger of this city, Wednesday was elected president of the Motion Picture Theater Owners of Wisconsin at the closing session of the organization's convention, F. J. McWilliams, Madison, retiring. Mr. McWilliams was chosen vice president. Other officers are: Ernest Langenmark, Milwaukee, treasurer; D. W. VanNorman, Milwaukee, secretary; Joseph Rhode, Kenosha, member of the national executive committee.

A resolution was adopted favoring cleaner, more truthful movies and exploitation thereof.

## STANDARD OFFERS OIL PROBE HELP

CHICAGO, Ill.—Directors of the Standard Oil company of Indiana Thursday telegraphed Governor McMillin of South Dakota, tendering him any information or assistance in the investigation of the distribution in his state. It was understood that any steps toward increasing the price of gasoline after the drastic cut throughout the territory of the Standard Oil company of Indiana, would await further developments.

## LABORER KIDNAPED AND BADLY BEATEN

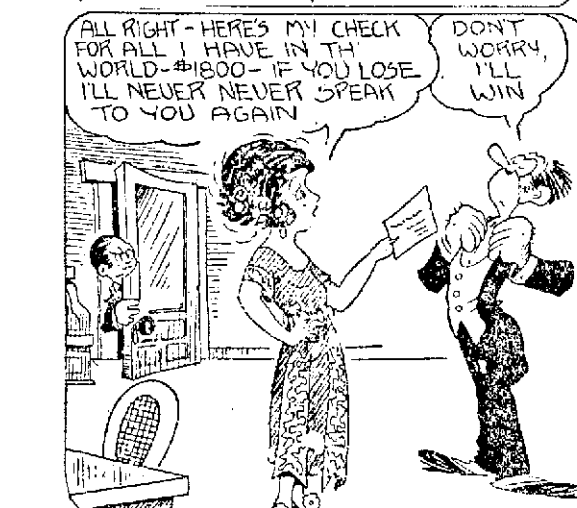

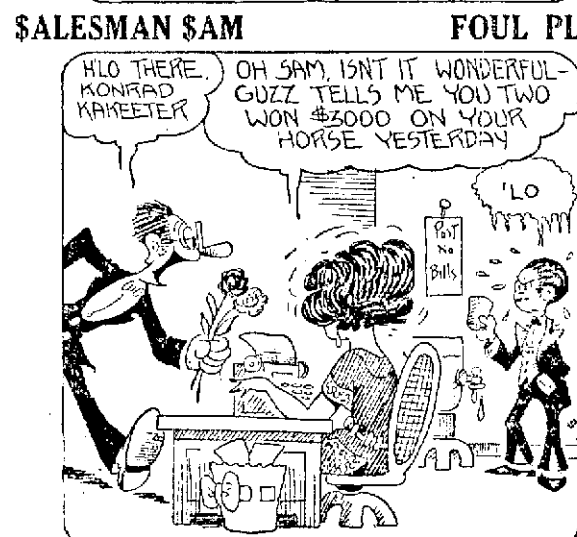

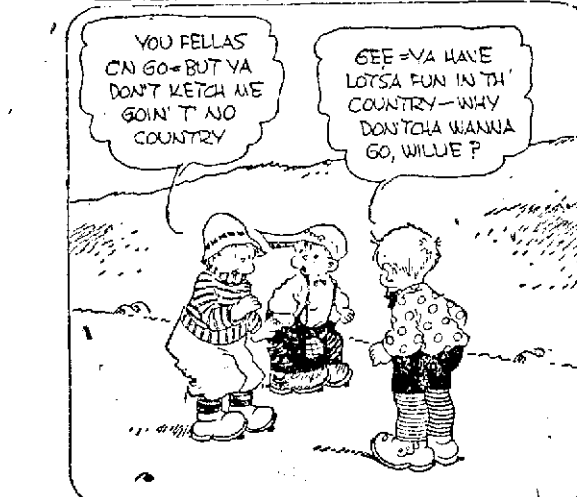

AMARILLO, Texas.—E. E. McDonald, railroad laborer, kidnaped by five unmasked men Wednesday night, returned to his home early Thursday bearing fifty or sixty slashes on his body. Two men are being detained and other arrests are expected, officers said.

## BEG YOUR PARDON

Bert Jacobs, 1720 Mississippi street, wishes it understood that he is not the Bert Jacobs who was sentenced to three days in the county jail on charges of stealing a \$10 suit of clothes. Bert Jacobs says he has never been arrested for any crime.

Russell James, whose car, a Ford coupe, was stolen near the Rainbow Garden last Tuesday night, says the initials on the door are "R. E. J." and not "R. S. J." as they appeared in the Tribune. He asks that the correction in the initials be made as it might assist in identifying the car.

## FRECKLES

## DOG HOLDS VIGIL FOR MASTER LOST IN UTAH FLOODS

WILLARD, Utah.—A big shaggy dog, strange to Willard's flood stricken community, sat Wednesday night near the railroad tracks, where since early on Tuesday he has maintained an almost constant vigil.

Monday night a farmer saw an automobile engulfed in water near the tracks and swept away as a thirty foot wall of water rushed through this little city.

A bolt of lightning illuminated the landscape and a large hairy dog was seen battling in the torrent.

Evidently he was in pursuit of the machine.

Wednesday night guardsmen were searching for the automobile and its three occupants, who have not been accounted for.

Meanwhile, a dog without a master sits whining near the tracks, except to growl occasionally when an unknown passerby attempts to frighten him away.

## FANNY BRICE GETS HER NOSE REDUCED WITH THE KNIFE

ATLANTIC CITY, N. J.—With her face swathed in bandages after an operation intended to change her nose from prominent to merely decorative, Fanny Brice still could flash out with a bit of humor.

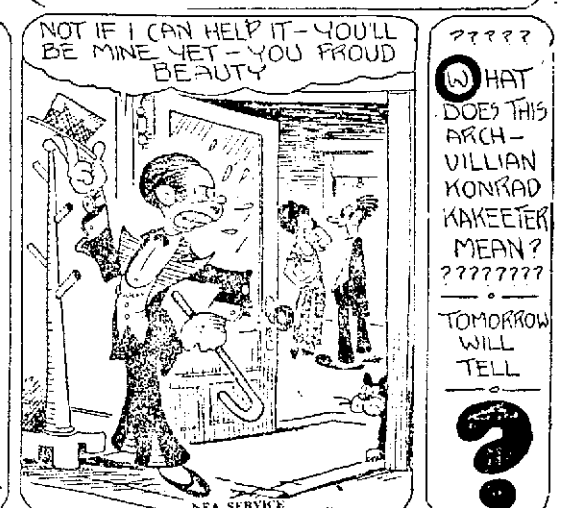

"I would suggest in the interest of those who must submit to operations that the surgeons use rubber tools," suggested Fanny. "For myself I'd rather a darn sight be out than hear the clink of steel instruments before the doctors start on their job."

The well known vaudeville star stood an hour and forty minutes of patient waiting while the surgeons removed cartilage from her nose to bring that formerly rather noticeable member to normalcy.

A story is being given out by the Brice menage at the Ritz to the effect that Flo Ziegfeld may cancel a contract with Miss Brice as leading lady in "Laughing Lena."

"I can get all the beauties I want

## HOME'S BAD ENOUGH FOR WILLIE

## DADDY O'REILLY SAYS MARY MILES MINTER IS THIRTY

LOS ANGELES, Cal.—A statement purporting to have been made at Lubbock, Texas, by Homer O'Reilly, father of Mary Miles Minter, movie star, that his daughter is thirty years of age, and not twenty one as generally believed, was flatly contradicted Thursday at the home of Miss Margaret Shelby, sister of the actress here. Miss Minter's birthplace and date of birth were given as Shreveport, La., April, 1902.

## CLAIM HALF-MILE RECORD FOR STATE AT MONROE FAIR

JANESVILLE, Wis.—The fastest mile said to have been trotted on a half mile track in Wisconsin was made at the Green County fair, Monroe, Wednesday when Todd Hart, blk. g. by Kentucky Todd, driven by Putnam, won the second heat of the 2:16 trot in 2:09 1/2. Joan Harvester, br. m. by The Harvester, Frost up, won the three-year-old trot.

## DESPITE DROUTH MARKET DISPLAYS VARIETY OF TRUCK

The public market opened Thursday morning with an unusual variety of produce. The truck gardening in the vicinity is below last year's yield due to the dry spell, but many good loads of garden truck were brought in. Some of the things seen this morning were: egg plant, green peppers, cucumbers, cabbages, crab apples, watermelon, lettuce, cantaloup, tomatoes, water cress and sweet corn.

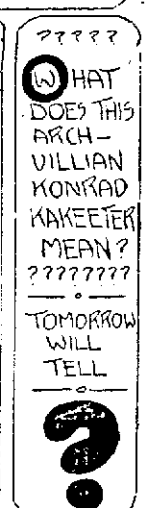

## TRACE TIRES AS CLUE TO MURDER

BARABOO, Wis.—Sheriff W. H. Ode, with the aid of H. J. Bohm, county attorney of Sauk county, are trying to identify two tires which are believed to have left imprints near the place where Robert Jaeger, wealthy recluse was killed, near Black Hawk, nearly a month ago.

The authorities have traced the tires to the place where they were purchased and a reward of \$500 has been offered for information leading to the arrest of the person who killed Jaeger.

The sea covers three-fourths of the earth's surface, or a total area of about 146 million square miles.

## FRECKLE-FACE

Here's a chance, Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable concern that it will not cost you a penny unless it gives you a clear complexion the expense is trifling.

Simply get an ounce of Othine—double strength—from any druggist and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case. Be sure to ask the druggist for the double strength Othine. This strength is sold under guarantee of money back if it fails to remove freckles.

# OFFICIALS AT HIGH SCHOOL LINING UP COACHING MATERIAL

### Unable to Make Choice as Yet Says Superintendent Mc- Cormick Thursday

Cormick Thursday

---

INFORMATION REGARDING MEN

## STEADILY POURING INTO OFFICE

**Sought in Making Choice**

**L**A Crosse high school is yet without an athletic coach, although officials in charge are busily engaged in securing one. Some of the men who would be available to come here this fall, B. E. McCormick, superintendent of schools, announced today.

Information regarding athletic coaches is steadily pouring into the superintendent's office in response to queries mailed out immediately following the resignation of Coach George Keogan a week ago.

Mr. McCormick said Thursday that prominent men in the coaching game,

including Zuppke of Illinois, spanning of Minnesota, and Jones of Iowa. have been asked for recommendations of men available to come here. While there are in the hands of school officials the names of a number of good men, it was announced that no choice would be made until the entire field is searched out.

### NINE ESCAPE DEATH

**SOLON SPRINGS.**—Nine persons escaped death when an automobile in which they were riding turned over on the Solon Springs highway near Bennett, pinning several under the wreckage. Earl G. Williams, Duluth, suffered a broken arm. Others escaped with minor bruises.

## COMINGS SAYS HIS RACE FOR GOVERNOR IS STARTING STRONG

Lieutenant Governor Says He is  
Getting Many Letters of  
Encouragement

MADISON, Wis.—Lieutenant Gov. George Comings asserted on Wednesday that he is well pleased with the support he has received in his preliminary campaign for the governorship. He declared that he is receiving many letters of encouragement.

Although he has indulged in a "feeler" campaign he will swing into a campaign of speeches throughout the state. A. C. Bowen, speaker in the campaign of Magnus Johnson in Minnesota will come to Wisconsin on September 1 in behalf of Mr. Comings' candidacy and is scheduled to make a number of speeches in behalf of the lieutenant governor's candidacy.

On Sunday Mr. Comings spoke to about 1,500 people at a picnic of the Pleasant Ridge Community club near Virgona. Mr. Comings spoke on the high cost of living and cited monopolies as the cause. He stressed the five chief monopolies in land, credit and banking, transportation, manufacture, warehouse and refrigeration.

## WINONA CONCERN'S LIABILITIES EXCEED ASSETS BY \$11,500

Liabilities of the bankrupt Harchin, son Rogers Produce company of Winona exceed its assets by approximately \$11,500, according to a sworn statement by H. F. Hutchinson, president of the concern, on file in federal court in Winona. Total liabilities of the company are listed at \$8,521, while total assets are scheduled at \$6,912.

The liabilities include \$200 due the federal government in taxes; \$174 due employees as wages; a \$1,500 note due the Deposit Bank & Trust company on a loan, secured by a chattel mortgage covering an automobile truck; and \$10,642 in unsecured claims.

The largest unsecured creditors are the Deposit Bank & Trust company, \$1,500; the First National bank, \$2,900; and Mrs. James H. Pearce, \$500—all involving notes for money loaned—and the Western Sales company, South Norwalk, Conn., \$1,655; T. C. Cherry company, Minneapolis, \$600; Kellogg Products company, Buffalo, N. Y., \$500; and the Western Grain & Coal company, \$453, all for merchandise.

The assets include \$26 in cash on hand; \$260 in promissory notes; stock valued at \$214; vehicles valued at \$2,800, including a truck mortgaged for \$1,500; equipment, machinery and fixtures valued at \$2,451; and debts due on open accounts totaling \$1,556.

In addition to the liabilities to creditors, the company has an outstanding obligation of \$10,800 to stockholders representing paid in stock.

## POLICE STAR AND FLIVVER REAPING HARVEST FOR BOYS

CHICAGO, Ill.—"I don't know as I ought to," murmured Mike O'Halloran, as he eyed longingly the five spot rendered him by a motorist he had just "harvested" for speeding. Then, after suitable hesitation, "Make it six and I will," he declared, and as the relieved motorist sped away, he gleefully passed \$3 over to his pal and fellow "cop" Joseph Pizzetto.

The two of them had picked up a policeman's star lost by Patrolman Jay Mulburg of the Stockyard station and with it and the aid of a flivver were having a joyous and profitable time on the south side at the expense of innocent motorists. It was too good to last.

Some one complained to the real police and out went search parties. The ingenious couple spent the remainder of the night at the Kinsington station.

## U. S. NAVY SENDS STRONG ENTRIES TO SEAPLANE RACES

WASHINGTON, D. C.—The navy team of four pilots, which will represent the United States in the forthcoming Schneider cup seaplane race off the English coast will sail Saturday from New York on the Leviathan. Four places will be taken, including two of the Curtiss type, which in their trials at Philadelphia averaged better than 175 miles an hour, or nearly 30 miles in excess of the former world record established by British flyers.

FALL DOWN CHUTE FATAL  
MENASHA, Wis.—Arthur Meyers, nephew of Mrs. Oscar Grade and Mrs. H. J. Schierl of this city, was instantly killed when he fell down an elevator shaft from the fifth floor of a Chicago hotel, according to word received here. Meyers, whose home was in Marquette, Mich., was a decorator. He was attending a convention at Chicago when the accident occurred.

## Simple Application That Dissolves Blackheads

No more squeezing and pinching to get rid of those unsightly blackheads. There is one simple safe and sure way to get them out and that is to dissolve them. Get about two ounces of calomel powder from your druggist—sprinkle a little on a cloth and rub briskly over the blackheads for a few seconds—wash the parts and every blackhead will be gone. Pinching and squeezing out blackheads make large pores and you cannot get all of the blackheads out this way—while this simple application of calomel powder and water dissolves every particle of them and leaves the skin and pores in their natural condition.

## CAR MAY BE GAS EATER—BUT BEAR IS BIT DIFFERENT

KANE, Pa.—Attempting to do a little bear hunting with a Ford as his only weapon, C. N. Newell, a traveling salesman, came to grief near here on Monday.

When he tried to run down a big black bear on the highway, and when the bear sent his teeth into the front tire, Newell got up speed and tried to hit the bear, but the animal, angered, turned and nipped the tire, puncturing it.

Newell managed to keep at the wheel but was unable to go fast enough to keep away from the bear. He drove into a field and climbed a tree too thin for the bear to climb. The bear stayed about the car chomping the tire for half an hour and then waddled off into the woods.

## SAUNDERS TO QUIT PIG-WIG COMPANY

Says Creditors Have His Business,  
Home and Property

MEMPHIS, Tenn.—The directors of the Piggy Wiggly corporation at a meeting scheduled for Thursday were expected to receive the resignation of Clarence Saunders, the stockholder, following his announcement that he would resign before the end of the present month.

The Piggy Wiggly corporation, which as parent concern, owns the patents, collects the royalties from, and manufactures and sells fixtures to the store company, faces the necessity of meeting a loan of one million dollars for which 50,000 shares of store company stock is held by representatives of the management of the subordinate concern. Mr. Saunders proposes that stockholders of the parent company surrender to him, in trust, one-half of their holdings in order that this supported, he might float a new loan to meet the obligation.

Lack of sympathy with this proposal, Mr. Saunders believed, was indicated by the failure of some of the largest stockholders to attend last night's meeting.

"My creditors have my business, my home and my property, but I still have my hands and my head. I intend to leave Memphis and build a business in some other city," he said.

## STATE FUNDS SHOW A SLIGHT INCREASE

MADISON, Wis.—State funds totaled \$15,581,146.92 on August 1 of this year, an increase of \$134,109.27 over the July 1 balance. State Treasurer Solomon Ledwith announced on Wednesday.

The July 1 balance was \$15,447,037.55. Receipts totaled \$2,271,250.22 and disbursements \$2,116,211.75.

The general fund contained \$11,695,935.33 on August 1 compared with \$11,120,438.69 a month previous. Receipts of this fund during the month were \$1,652,617.75 and disbursements \$1,374,018.11.

The state insurance fund had receipts of \$12,657.16 during the month with \$8,081.45 disbursements leaving a balance August 1 of \$60,875.76.

## BADLY HURT, DREBACH MAN DIRECTS REMOVAL OF MACHINE FROM BODY

DREBACH, Minn.—Maurice Miller is in a serious condition as the result of injuries inflicted when the separator of a threshing outfit which he and his brothers were setting up on the farm of John Flannigan at Nodine fell upon him. Although pinned beneath the heavy piece of machinery, he directed the work of removing it from his body. A physician was called and he was made as comfortable as possible but it is feared that he may not recover.

## GEDDES DECLARES SING SING BETTER THAN ELLIS ISLAND

NEW YORK.—The British library of information made public the text of Ambassador Geddes' report on Ellis Island in which he was quoted as saying that he would prefer "imprisonment in Sing Sing to incarceration on Ellis Island."

ALMOST FREE EXCURSION  
On steamer Washington Wednesday, August 22nd. Only 35c. Children under 16 only 25c for round trip to Winona, 9:00 a. m. to 6:00 p. m. —Advertisement.

Take your complexion seriously

Are your pores enlarged or clogged with waste matter? Is your skin rough, unusually oily, blotched, or red? Don't neglect the treatment of these defects when Resinol Ointment and Resinol Soap usually overcome such troubles quickly and easily. Resinol Ointment soothes and heals the skin while Resinol Soap cleanses and refreshes it.

Try them and see. At all druggists.

RESINOL

## MOVIES

"THROUGH THE BACK DOOR"  
Gertrude Astor, playing an important part in "Through the Back Door," Mary Pickford's photo feature on exhibition at the Rivoli tonight for the last time, claims to be the only actress who ever "rooted her" way into pictures. She came to Los Angeles several years ago as a member of the "Boston Band," most famous ladies' band in the world, and was engaged to play the trombone in some scenes for a Selig feature. This started her on a career in the speechless drama.

STRAND TODAY  
Joseph J. Dowling, who is seen in support of Bessie Barriscale in "The Breaking Point," which is now at the Strand theater, is a unique figure in the cinema world. Censor compels the admission that Mr. Dowling isn't as young as he used to be—he served his country as a drummer-boy in the civil war, but you'd never believe it to watch him work.

First of all, he is the type of artist that absolutely delights the poor, harassed directors. Ability aside, he is there. If you know what we mean, his heart and soul is in whatever job he tackles, and he's "made up and on the set" just exactly when he should be.

Joseph J. Dowling is well on the road to the realization of his dearest heart's desire. We wish him every success and hail him the rife he has so completely earned and so thoroughly deserves—"The Miracle Man of the Screen."

NELL SHIPMAN AT CASINO  
IN-OWN NORTHERN STORY  
Nell Shipman, at the Casino theater today, in her new picture, "The Grub Stake," occupies a unique position in the motion picture world. She is the only girl who writes her own stories, plays the leading role and conducts them, and her latest picture clearly shows her proficiency in this unusual task.

Born of British parentage in Victoria, B. C., her father was interested in the fishing and mining industries of British Columbia and the Yukon territory.

At 16 she headed her own company on a tour of Alaska where the bill ranged from "The Girl of the Golden West" to "Charlie's Aunt."

In 1919 Nell Shipman joined forces with James Oliver Curwood and wrote the continuity of the magazine story from which "Back to God's Country" was made. This was her first venture with wild animals in pictures and resulted in her purchase of them.

Her zoo consists of nearly 200 wild animals, many of whom appear in the picture.

THORNS AND ORANGE BLOSSOMS  
"The class in reading will now come to order."

The teacher, none other than Gasnier, picturesque director, waved his hand toward the most unusual line-up of pupils perhaps ever gathered together for one instructor.

"Kenneth, please get your book and seat yourself at this desk."

Whereupon Kenneth Harlan seated himself.

## HAIR TREATMENT ENDORSED BY DOCTORS AND NURSES

Hospital Demonstration of New  
Tonic-Shampoo Gets Hearty Endorsement of Doctors and Nurses

The new and wonderful discovery of F. W. Fitch, widely known authority on hair and scalp treatment, has been demonstrated before and heartily endorsed by doctors and nurses. They endorse Fitch Dandruff Remover Shampoo because they have been shown by actual demonstration what it does for the hair and scalp.

No other shampoo combines the two necessary elements for the thorough cleansing and invigoration of the hair and scalp. The tonic in Fitch Shampoo actually penetrates into every pore and hair follicle and dissolves every particle of dirt, grease or other foreign substance. The shampoo then is gradually released by application of water and when rubbed out and rinsed, carries with it all dandruff, dirt, and foreign substance, leaving every pore open and functioning as nature intended. Your first Fitch Shampoo will leave no doubt in your mind. You'll know "by the feel" that your hair and scalp were never thoroughly clean before.

Enough Fitch Dandruff Remover Shampoo to last for months costs but little at any toilet counter.

## RAILROADS ON FREIGHT CHARGE STORAGE

On freight left over time. Why not arrange with us to take care of your freight hauling and a void paying storage?

## CALL CONVENTION OF MINNESOTA'S FARM-LABOR FOLK

ST. PAUL, Minn.—Formal call for a statewide Farmer-Labor convention to be held in Minneapolis, Sept. 2 was issued here Wednesday by William Mahoney, president of the Working People's Non-partisan political league and H. G. Teigen, Minneapolis secretary of the Farmers' Non-partisan league.

The convention, Mahoney announced, will discuss plans "which will enable the farmer-labor party to conduct the work of education and organization in a more effective method than heretofore."

SON TOO GOOD  
MADISON, Wis.—Spiriting activities of Henry Belltho, 11, may bring considerable trouble to his father, James.

Four boys in swimming found that their clothing had disappeared. They saw Henry swimming with a brown bag, followed him and found their
